
September, 2017

Dear Customers and Collaborators,

Due to recent events driven from September 19th earthquake, we hope that everyone is safe and well. We would like to communicate that our facilities have not suffered any major impact, but for the safety of our personnel we decided to stop activities in our headquarters to ensure structural safety and prevent leakages of any type. With these actions done, our operation in Mexico City has gone back to 100% production status since September 20th. Through safety stock, we were capable to compensate the shutdown suffered, and we did not have shortfalls on our shipments. We appreciate your concern and good thoughts and we will continue to update the situation if needed as it develops.

Best Regards,

BOCAR Group.
